

CATALOG PRODUCT 2024

WELLNESS & BEAUTY

Quality, peace of mind, experience, trust and service.

IBEROCEL is one of the leading companies in the disposable material sector. Backed by customer satisfaction and over 30 years of experience in the marketing, import and export of all types of single-use material. In its catalogue we can find a wide variety of accessories for spas, beauty, equipment, waxes, heaters and uniforms. **We are specialized and are experts in wellness accessories: caps, swimsuits, all types of slippers, accessories for treatments and massage techniques. As a latest addition to its product catalogue, Iberocel has included biodegradable and environmentally friendly items.**

In order to provide a better and more complete service, they have incorporated the Paraíso Cosmetics Cosmetics Line, where their clients can find facial and body treatments, spa and massage lines, post-depilation, manicures, pedicures, aromatherapy and conductive creams for appliances.

All the articles they sell are covered by the IBEROCEL brand, a sign of guarantee and quality. They personalize their articles to provide an exclusive service to their clients, offering a wide range of products and designs to suit their clients' tastes, thereby increasing the image of their companies and their sales.

IBEROCEL is steadily advancing its international expansion strategy, attending both national and international fairs and achieving a position throughout the world.

Its aim is to achieve the highest level of customer satisfaction with top quality products, efficient service, highlighting delivery times of 24/48 hours (for products in stock) and an excellent quality/price ratio.

It also offers you the necessary quality in its products, as certified by its UNE EN ISO 9001:2015 quality certification validated worldwide and obtained in 2002.

IBEROCEL is synonymous with Quality, Tranquility, Experience, Trust and Service, a fundamental character that has persisted since its foundation. These values and company philosophy are recognized through various awards such as the "Gold Medal" awarded by the Spanish Association of Image Professionals (AEDEPI), the "European Award for Business Management and Innovation" by the European Association of Economy and Competitiveness, finalists as "Best Business Project in the Aesthetics Sector" in the awards given by Salón Look and the Beauty Contact Awards as a leading company in the aesthetics sector.

ARE SUSTAINABLE

ENVIRONMENTAL SUSTAINABILITY IN PARAISO COSMETICS

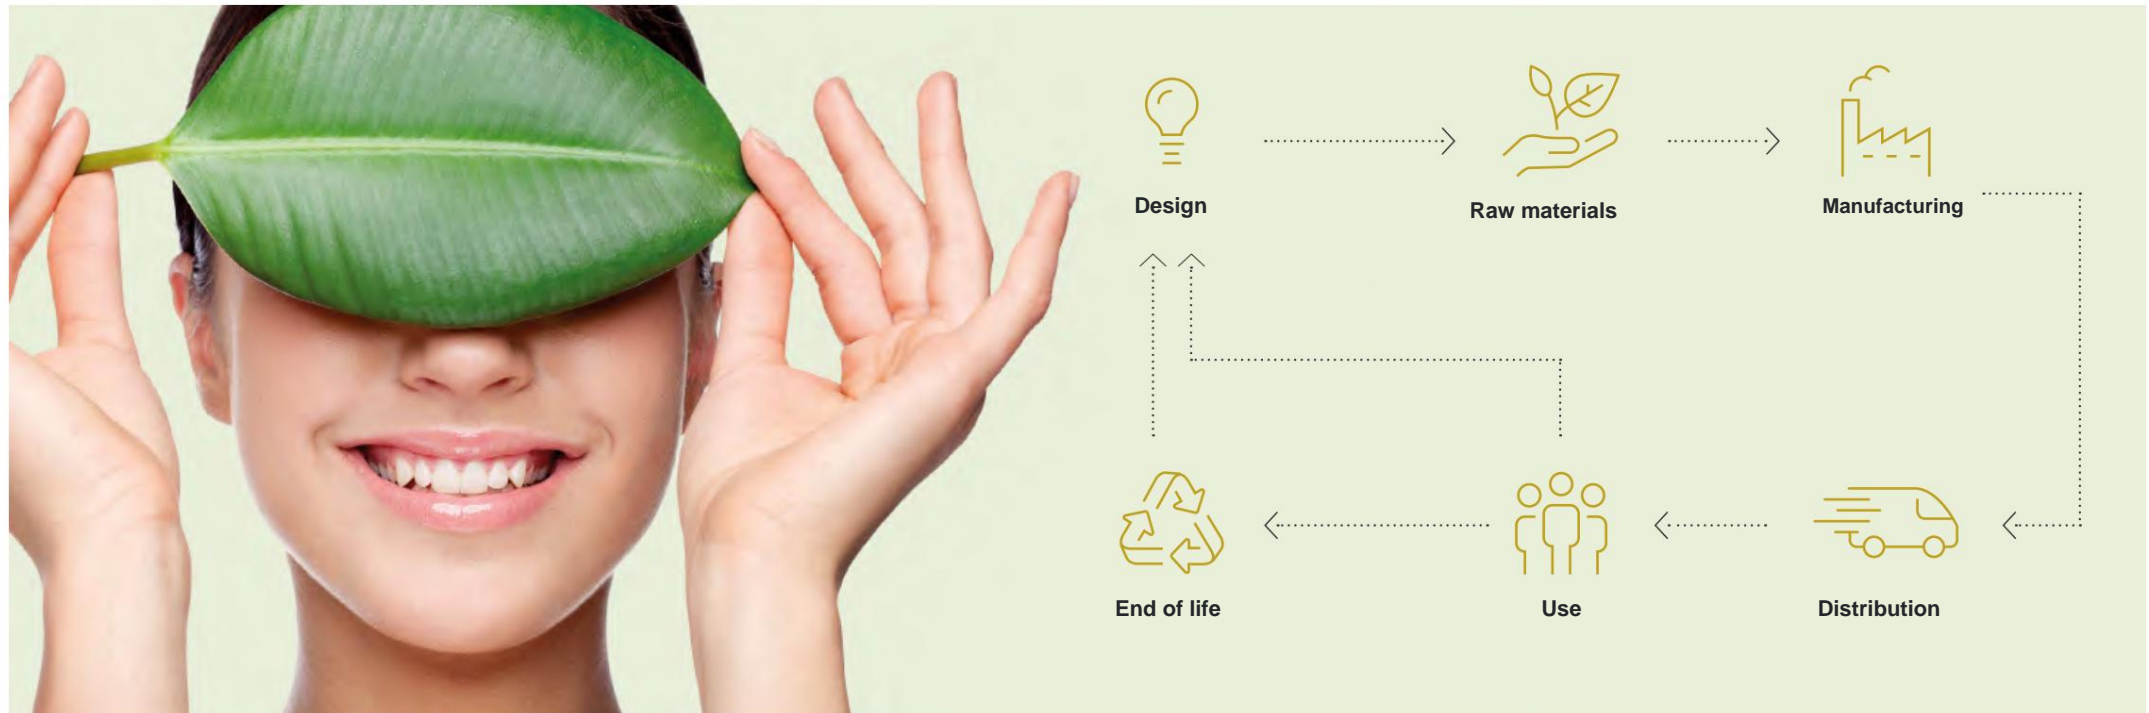

Product life cycle

At Paraíso Cosmetics we are aware of the importance of environmental sustainability as a necessary element in our activities and products.

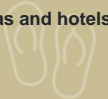

For this reason, and taking into account the life cycle of our products, our goal is to introduce strategies that contribute to improving sustainability in each phase.

C3
**Conductive creams for
appliances**

C3. Conductive creams for appliances

13IB95
Face cream
(500 ml.)

Facial conductive cream for therapies with equipment. Reduces the skin's resistance to the passage of electric current, lubricates, moisturizes and facilitates the sliding of the electrode. Due to its low paraffin concentration, it allows the correct introduction of active ingredients into the skin. It has a dosing pump for greater ease of application.

13IB97
Anti-cellulite cream
(1000 ml.)

Anti-cellulite body conductive cream for therapies with apparatus. Prepared with a high content of natural extracts and draining, venotonic and metabolism-activating active ingredients with the purpose of increasing and enhancing the reduction of localized fat deposits and cellulite in its three phases.

It reduces the skin's resistance to the passage of electric current, lubricates, moisturizes and facilitates the sliding of the electrode. Due to its low concentration of paraffin, it allows the correct introduction of active ingredients into the skin. It has a dosing pump for greater comfort in its application.

13IB96
Body cream
(1000 ml.)

Conductive body cream for therapies with equipment. Reduces the skin's resistance to the passage of electric current, lubricates, moisturizes and facilitates the sliding of the electrode. Due to its low paraffin concentration, it allows the correct introduction of active ingredients into the skin. It has a dosing pump for greater ease of application.

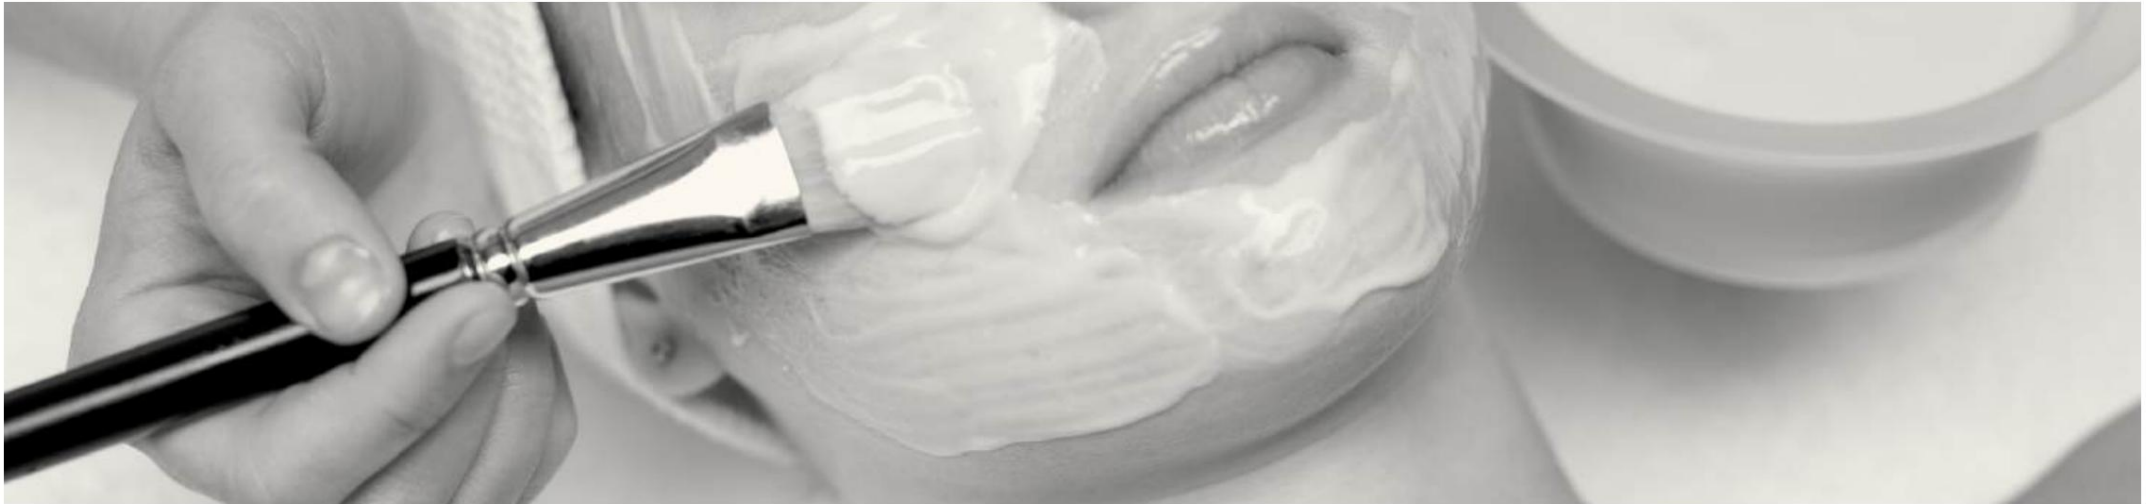

13IB99
Anti-aging booster
(30 ml.)

Booster that enhances and increases the rejuvenation action thanks to its innovative active ingredients. Formula designed to immediately redensify and firm the skin. Accelerates and stimulates the proliferation of fibroblasts, the production of collagen and strengthens the dermis and epidermis. Use it in your treatments with Apparatus.
